Dear Jenny,

Congratulations, Jenny, it was a superb performance by you & all your assistants. The food was excellent & the detail to service was exemplary. Nothing was overlooked & your wonderful staff smiled all the time, all the time whatever was happening overhead. The rain poured down, lightning flashed & thunder crashed but still they carried on giving 100% attention & still smiling. One little member was soaked through & still smiling.

Many guests asked who were the caterers, where did you get them from, they're professional. Course they were! The 'canopies opened the party well - "Gosh, I've never tasted such wonderful canopies" was heard in all quarters. 'We need to know the name of the caterers' was repeated many times. Your service was so discreet & attentive.

They enjoyed being nudged up together, they say it made them speak to others around as they negotiated spaces - & moved nearer one another away from the gentle & not so gentle waterfall of rain!

I commend you all, & particularly you Jenny & I'm sure you'll pass the word to your lovely staff.

Another bigger hug for you Jenny, thanks for making an enjoyable & memorable occasion.

Best wishes to David & thanks for his early planning contribution.

(It would be lovely to see you over here sometime if you can spare the time, to have a little drink together!)

Very sincerely

Myra
